WHO WE ARE

Swan Associates, Inc. was established in 1973 as a manufacturers' representative organization, selling commercial HVAC products in Connecticut and Western Massachusetts. Our mission is to remain the preferred supplier of commercial HVAC products, services and parts by providing outstanding design solutions and support to consulting engineers, building owners, & maintenance staff and mechanical engineers.

WHAT IS SWAN UNIVERSITY

Swan University was developed in an effort to continue on our mission to support our consulting engineers, building owners, maintenance staff and mechanical contractors. Swan University provides high level training and factory certification for Daikin VRV products as well as other product lines we represent.

Customized Training Options Available
